

**RESIDENTIAL DISTRICTS\***

<b>YR Yadkin River</b>
The YR District is intended primarily to protect the community's main water supply, preserve the historic features of this area, and preserve the natural beauty of a continuous conservation corridor along the Yadkin River. This zoning district is the most restrictive, with low density residential development being the primary use allowed.
<b>AG Agricultural District</b>
The AG District is primarily intended to accommodate uses of an agricultural nature. The district is also intended to accommodate scattered non-farm residences on large tracts of land, but is not intended for residential subdivisions with small lots. The district is intended for application in Growth Management Areas 4 and 5.
<b>RS40 Residential Single Family</b>
The RS40 District is primarily intended to accommodate single family detached dwellings on large lots in areas without access to public water and sewer services. This district is intended for application in Growth Management Areas 4 and 5 and appropriate protected watershed areas. This district may also be applicable to older, larger lot development in Growth Management Areas 2 and 3 developed prior to the effective date of this Ordinance.
<b>RS30 Residential Single Family</b>
The RS30 District is primarily intended to accommodate single family detached dwellings on approximately three-quarter (0.75) acre lots in areas without access to public water and sewer services. This district is intended for application in Growth Management Areas 4 and 5. The district may also be applicable to older, larger lot development in Growth Management Areas 2 and 3 developed prior to the effective date of this Ordinance.
<b>RS20 Residential Single Family</b>
The RS20 District is primarily intended to accommodate single family detached dwellings in suburban areas and may also be applicable to older, large lot development constructed prior to the effective date of this Ordinance. This district is intended for application in Growth Management Areas 2, 3, and 4.
<b>RS15 Residential Single Family</b>
The RS15 District is primarily intended to accommodate low to moderate density single family detached dwellings in suburban and urban areas. This district is intended for application in Growth Management Areas 2 and 3, and may be suitable for Metro Activity Centers where public facilities, including public water and sewer, public roads, parks, and other governmental support services are available.
<b>RS12 Residential Single Family</b>
The RS12 District is primarily intended to accommodate moderate density single family detached dwellings in suburban and urban areas. This district is intended for application in Growth Management Areas 2 and 3, and may be suitable for Metro Activity Centers where public facilities, including public water and sewer, public roads, parks, and other governmental support services are available.
<b>RS9 Residential Single Family</b>
The RS9 District is primarily intended to accommodate relatively high density single family detached dwellings in urban areas. This district is intended for application in Growth Management Areas 2 and 3 and may be suitable in Metro Activity Centers where public facilities, including public water and sewer, public roads, parks, and other governmental support services are available.
<b>RS7 Residential Single Family</b>
The RS7 District is primarily intended to accommodate high density single family detached dwellings in urban areas. This district is intended for application in Growth Management Areas 2 and 3, and may be suitable for Growth Management Area 4 and Metro Activity Centers where public facilities, including public water and sewer, public roads, parks, and other governmental support services are available.

<b>RSQ Residential Single Family Quadraplex</b>
The RSQ District is primarily intended to accommodate predominantly single family areas containing a mixture of single family detached dwellings, duplexes, triplexes, and quadraplexes in urban neighborhoods and in areas with adequate infrastructure to support more intense development. This district is intended for application in Growth Management Areas 2 and 3 and may be suitable for Metro Activity Centers where public facilities, including public water and sewer, public roads, parks and other governmental support services are available.
<b>RM5 Residential Multifamily</b>
The RM5 District is primarily intended to accommodate low density, pedestrian-oriented sites and communities containing duplexes, twin homes, multifamily and townhouse residential buildings with three or four units, and similar residential uses at a maximum overall density of five (5) units per acre. This district is intended for Growth Management Areas 2 and 3, and may be suitable for Growth Management Area 4 and Metro Activity Centers where public facilities, including public water and sewer, public roads, parks, and other governmental support services are available.
<b>RM8 Residential Multifamily</b>
The RM8 District is primarily intended to accommodate duplexes, twin homes, townhouses, multifamily, and other low intensity multifamily uses at a maximum overall density of eight (8) units per acre. This district is appropriate for Growth Management Areas 2 and 3 and may be suitable for Metro Activity Centers where public facilities, including public water and sewer, public roads, parks, and other governmental support services are available.
<b>RM12 Residential Multifamily</b>
The RM12 District is primarily intended to accommodate multifamily uses at a maximum overall density of twelve (12) units per acre. This district is appropriate for Growth Management Areas 1, 2, and 3 and may be suitable for Metro Activity Centers where public facilities, including public water and sewer, public roads, parks, and other governmental support services are available.
<b>RM18 Residential Multifamily</b>
The RM18 District is primarily intended to accommodate multifamily uses at a maximum overall density of eighteen (18) units per acre. This district is appropriate for Growth Management Areas 1 and 2, and may be suitable for Growth Management Area 3 and Metro Activity Centers where public facilities, including public water and sewer, public roads, parks, and other governmental support services are available and the site has direct access to a minor or major thoroughfare.
<b>RMU Residential Multifamily</b>
The RMU District is primarily intended to accommodate multifamily uses at unrestricted densities. This district is appropriate for Growth Management Areas 1 and 2 and may be suitable for Metro Activity Centers where public facilities, including public water and sewer, public roads, parks, and other governmental support services are available and the site has direct access to a minor or major thoroughfare.
<b>MH Manufactured Housing</b>
The MH District is primarily intended to accommodate manufactured housing developments with a maximum overall density of five (5) units per acre. This district is intended for application in Growth Management Area 3 where public facilities, including public water and sewer, public roads, parks, and other governmental support services are available.

**NONRESIDENTIAL DISTRICTS\***

<p><b>NO Neighborhood Office</b></p> <p>The NO District is primarily intended to accommodate very low intensity office uses within converted single family detached units. The district is intended to be located on the periphery of established residential areas, along major and minor thoroughfares. The district is established to provide convenient locations for offices, the size and operating characteristics of which require limited parking and which generate little traffic. Standards are designed so that this district may serve as a transitional land use between residential districts and commercial districts. This district is intended for application in GMAs 2, 3, and 4.</p>
<p><b>LO Limited Office</b></p> <p>The LO District is primarily intended to accommodate moderately intense medical, professional, administrative, and government office uses on small to mid-sized sites, in a suburban setting. The district is typically located near the intersection of a collector street or thoroughfare in areas which are otherwise developed with residences. Standards are designed so this district may serve as a transition between residential districts and commercial districts. This district is intended for application in GMAs 2 and 3.</p>
<p><b>CPO Corporate Park Office</b></p> <p>The CPO District is primarily intended to accommodate office and research and development uses in a planned, campus-like setting compatible with adjacent residential uses. Auxiliary assembly and warehousing activities may be permitted as part of a total project. The district may contain limited commercial uses within employment centers. The district is intended for large sites with direct access to thoroughfares which provide locations for major development in GMAs 1, 2, 3, 4 and Metro Activity Centers.</p>
<p><b>GO General Office</b></p> <p>The GO District is primarily intended to accommodate high intensity office uses and supporting services. The district is established to provide locations for employment within GMAs 1 and 2, Metro Activity Centers, and GMA 3 with access to thoroughfares.</p>
<p><b>NB Neighborhood Business</b></p> <p>The NB District is primarily intended to accommodate very low intensity office, retail, and personal service uses close to or within residential areas. The district is established to provide convenient locations for businesses which serve the everyday household needs of nearby residents without disrupting the character of the neighborhood. The district is not intended to accommodate retail uses which attract customers from outside the neighborhood or which primarily cater to motorists. This district is intended for application in GMAs 2, 3, 4, and 5.</p>
<p><b>PB Pedestrian Business</b></p> <p>The PB District is primarily intended to accommodate office, retail, service, institutional, and high density residential uses which customarily serve community and convenience business needs of smaller communities and urban nodes in the city and county. The district is intended to encourage the development of attractive, identifiable small towns, and to accommodate the pattern of building in the business concentrations surrounding the central core of Winston-Salem, and the central core of other municipalities in the County. The district should demonstrate pedestrian oriented design through elements such as buildings pulled up to the street, on-street parking, street trees, covered arcades, awnings, storefront display windows, public/private outdoor spaces, wide sidewalks, and building entrances facing the street. This district is intended for application in GMAs 1, 2 and 3.</p>
<p><b>LB Limited Business</b></p> <p>The LB District is primarily intended to accommodate moderately intense neighborhood shopping and service centers close to residential areas. The district is established to provide locations for businesses which serve nearby neighborhoods, including smaller business locations up to ten (10) acres in size in rural areas. The district is typically located near the intersection of a collector street or thoroughfare in areas which are otherwise developed with residences. Standards are designed so that this district, in some instances, may serve as a transition between residential districts and other commercial districts. This district is intended for application in GMAs 2, 3, 4, and 5.</p>
<p><b>NSB Neighborhood Shopping Center Business</b></p> <p>The NSB District is intended to provide for the development of integrated, self-contained shopping and service centers designed to meet the daily retail and service needs of residents in the surrounding area. The district is designed to be compatible with adjacent residential areas by limiting uses and access drives, and by providing substantial setbacks and landscape buffers. The district is intended for application on sites with good road access in GMAs 1, 2, and 3 and Metro Activity Centers. Development in GMA 4 should be considered only where there is a demonstrated need for retail and service uses. The establishment of a neighborhood shopping center district does not establish justification for future commercial zoning in the area.</p>
<p><b>HB Highway Business</b></p> <p>The HB District is primarily intended to accommodate retail service and distributive uses. The district is established to provide locations for establishments which require high visibility and good road access, or which cater primarily to passing motorists. However, the district is not intended to encourage or accommodate strip commercial development. Developments in this district generally have substantial front setbacks. This district is intended for application in GMAs 2, 3, and 4.</p>

<p><b>GB General Business</b></p> <p>The GB District is primarily intended to accommodate a wide range of retail, service, and office uses located along thoroughfares in areas which have developed with minimal front setbacks. However, the district is not intended to encourage or accommodate strip commercial development. The district would accommodate destination retail and service uses, characterized by either a larger single business use or the consolidation of numerous uses in a building or planned development, with consolidated access. This district is intended for application in GMAs 1, 2, 3, and Metro Activity Centers.</p>
<p><b>CB Central Business</b></p> <p>The CB District is primarily intended for application in GMA 1. The district is established to encourage high intensity, compact urban development. The district is intended to accommodate a wide range of uses, including office, retail, service, and institutional developments in a pedestrian-oriented setting. The district also accommodates high density residential development. These uses may be mixed on the same tract or within the same structure.</p>
<p><b>MRB-S Major Retail &amp; Business</b></p> <p>The purpose of the MRB-S District Section is to ensure that major retail projects are adequately analyzed through site plan review and supplemental criteria in order to determine their compatibility with the surrounding community. This district is characterized by large sized destination shopping in a single structure, or as part of a large shopping center. The potential individual and cumulative impact upon the community as a result of the large-scale retail development shall receive a comprehensive review under the established criteria. The establishment of a Major Retail and Business District does not establish justification for future large-scale retail zoning in the area. Therefore the community's natural, physical, economic and fiscal resources, and their adequacy to accommodate the impact of such developments, both individually and cumulatively shall be fully evaluated. This District is intended for application in GMAs 1, 2 and 3, and within a designated Metro Activity Center, and shall be applied as a Special Use District.</p>
<p><b>E Entertainment</b></p> <p>The E District is primarily intended to accommodate a mixture of retail, office, residential, and entertainment (indoor and outdoor) related uses. This district is intended for application in GMAs 1 and 2.</p>
<p><b>LI Limited Industrial</b></p> <p>The LI District is primarily intended to accommodate limited manufacturing, wholesaling, warehousing, research and development, and related commercial and service activities which, in their normal operations, have little or no adverse effect upon adjoining properties. The district is established to provide locations for industrial development in GMAs 1, 2, 3 and 4 and Metro Activity Centers.</p>
<p><b>GI General Industrial</b></p> <p>The GI District is primarily intended to accommodate a wide range of assembling, fabricating, and manufacturing activities. The district is established for the purpose of designating appropriate locations and establishing development regulations for uses which may have significant environmental impacts or which require special measures to ensure compatibility with adjoining properties. The district is established to provide locations for major developments in GMAs 1, 2 and 3.</p>
<p><b>CI Central Industrial</b></p> <p>The CI District is intended to accommodate biomedical, technological, scientific, and other public and private research uses within GMA 1. The district is also intended to accommodate a pedestrian oriented mixture of uses such as office, retail, residential and light manufacturing to support the primary research function of the district. The district encourages innovation by offering flexibility in design and layout requirements in an urban context. Development in the CI District should incorporate pedestrian oriented design elements such as facade articulation, sidewalks, open space plazas, entrances facing the street, windows, awnings, and structured parking.</p>
<p><b>IP Institutional &amp; Public</b></p> <p>The IP District is intended to accommodate public and institutional uses which have a limited land use impact or traffic generation potential upon surrounding uses. The district is intended to accommodate smaller, less intensive public and institutional uses which have concentrated service areas and are located in or near residential areas, or larger, less intensive recreational or institutional facilities in rural areas.</p>
<p><b>C Campus</b></p> <p>The C District is intended to accommodate medium to large-sized public, semi-public, and institutional uses which have a major land use impact or traffic generation potential upon surrounding uses. The district is intended to accommodate larger, more intensive public and institutional uses which have extensive service areas and are centrally located.</p>
<p><b>MU-S Mixed Use</b></p> <p>The MU-S District is intended to accommodate a comprehensively planned, pedestrian oriented mix of three (3) or more distinct land uses. This district has applications in a broad range of urban to suburban locations. The size and intensity of MU-S developments may vary based on their physical context and location. The MU-S District provides greater development flexibility in exchange for certain planning and design considerations.</p>
